

NFC Pet Tag

Quick Details

Mainly used for pet identification. The dog tag is a circular keychain that can be attached to a dog leash. After the police complete the registration, if the puppy gets lost, as long as the finder takes the puppy to the police station, the police can use a scanner to scan the left side of the puppy to know its relevant information, making it convenient to find the owner.

Description

RFID Parameter	
Model No.	LDF-D28C
Type	NFC Pet Tag
Protocol	ISO / IEC 14443 A
Frequency	Worldwide 13.56Mhz
Chip	NTAG® 213
Memory	UID 7Byte
	User 144 Byte
Read&Write	Supported
Read Range	0.1-10cm
Data retention	10years
Programming Cycles	100,000 cycles
Physical Parameter	
Size	Diameter 28mm
Surface Material	PVC waterproof
Encode	Supported
Operating temperature	-25°C ~ +65°C

Operating humidity	20% ~ 90%RH
Package	200pcs/box
Customized Service	Chip / Antenna / Material / Printing / Craft

Application

1. Mainly used for pet identification
2. Property hotel access card
3. Electronic tickets or electronic business card posters
4. Industrial automation, identification of goods
